Parlor Product Guide

First, we transformed
the liner industry.

Now, we're innovating
our relationship with it.

When it comes to dairy solutions, Lauren AgriSystems, Ltd., remains dedicated to working hard—for Herd, for Profit, for Dairy—to become your parlor's most vital partner. In fact, our entire team is focused on bringing you the premium products your herd deserves at prices that allow your business to grow.

How are we doing it? By giving you a choice.

Now you can choose to work with us directly or go through your trusted dealer. Either way, we'll supply your parlor with outstanding products, like our patented Lauren Liners and premium milk hose, at a price we know you'll like.

All of our new and traditional offerings are made from the same superior materials, using our proven manufacturing methods, to remain the reliable, high-quality products that you've trusted for years. It's a bond we refuse to break.

We are dedicated to protecting your cows, your legacy and your way of life—and doing it on your terms. Read through our brochure and let us know if you like what you see. If you do, you can call us at **866-851-0252** or send an email to info@laurenagrisystems.com.

We look forward to serving you!

*"We are dedicated to
protecting your cows, your legacy
and your way of life."*

The Values We Stand For:

for **Herd.**

Innovations to keep your herd healthy, comfortable and productive.

for **Profit.**

Products to help your dairy run more smoothly, efficiently and profitably.

for **Dairy.**

Solutions to protect your way of life and ensure the sustainability of the industry.

The Science Behind the Solutions.

All Lauren AgriSystems' products have been designed to make your job easier and your business more profitable, for true peace of mind. We partner with materials experts, top laboratories and industry professionals to bring you high-performance products based on relevant market information and the best research available.

Lauren Liners, Lauren Milking Shells and our premium milk hose are unique due to their patented Tri-Circle® barrel and proprietary DairyGrade® silicone blend.

Tri-Circle® Barrel Design

Under vacuum, the liner collapses evenly along the length of the teat, ensuring undue pressure is not placed on the teat end, which helps make your cows more comfortable.

Open

DairyGrade® Compound

Engineered to specifically match the performance of the Tri-Circle barrel and meet the demands of the milk parlor by lasting a guaranteed 4,000 milkings.

Collapsed

The exclusive silicone blend ensures our products are long-lasting, easy to clean and flexible—even in temperature extremes.

- Meets FDA CFR21 177.2600 standards
- Meets 3-A testing standards
- Bisphenol A (BPA) and Phthalate free
- Nonhalogenated
- Ultralow carbon content
- Reduces liner waste

**Herd Health.
Parlor Productivity.
Industry Advancement.**

The Lauren Liner
Makes the Difference.

Fast Milking

The Lauren Liner is designed to provide fast, complete milking for increased productivity.

Fewer Squawks

Using Lauren Liners results in fewer squawks. Parlor managers can also expect fewer fall-offs and kickoffs.

Optimal Liner Life

Our liners are made of a proprietary DairyGrade® silicone compound that is guaranteed for up to 4,000 milkings.

Guaranteed Teat-End Health

Research proves that using the Tri-Circle® barrel improves teat ends.

Greater Cleanability

The liner meets 3-A testing standards, resists fatigue-induced cracking and maintains a smooth surface finish to prevent unwanted residue and bacteria buildup.

Quality Control

Every liner sold is individually inspected, preconditioned and engraved with a unique serial number, providing complete product traceability from raw material to end user.

Optional Vents

Our patented vent design—now with standard and reduced-airflow vent options—minimizes clogging and ensures uniform milk flow.

Lauren AgriSystems Products

Not only can we strengthen your business, we can improve your cows' health and happiness—and make the industry better while we're at it.

Milking Products

Go beyond the essentials and choose the exceptional.

Lauren Liners

Lauren AgriSystems' Liners improve your bottom line by reducing expenses and increasing productivity. The Lauren Liner's patented Tri-Circle® barrel and proprietary DairyGrade® silicone offer fast milking, fewer squawks and greater cow comfort. Plus, all of the Lauren Liners have a specialized, nontwist design.

New! Tri-Fecta offering: Lauren Liners are now available in three styles for optimal fit and performance. That means you have six liner options to choose from to fit a variety of milking systems.

Available in standard vented, reduced-airflow vented and nonvented liners, with or without silicone-reinforced short milk tubes.

- Choose either version of our standard vented liners if your system has no vacuum limitations, does not have venting in the claw or if you prefer multiple vents in the cluster. These liners feature the standard yellow vent.
- Our **NEW Reduced-Airflow Vented Liners** are designed for systems with vacuum limitations, with venting in the claw or if you prefer multiple vents in the cluster.
- Our nonvented liners work well with systems with vacuum limitations and vented claws.
- Our silicone-reinforced liners are a good choice if your dairy experiences frequent short milk tube tears.

Part #	Description	Qty/Box
Lauren Liner/Original Green		
10104	Standard Vent, Standard Liner	100 liners
10106	Standard Vent, Reinforced Liner	100 liners
NEW! Lauren Liner/Light Green		
10109	Reduced-Airflow Vent, Standard Liner	100 liners
10110	Reduced-Airflow Vent, Reinforced Liner	100 liners
Lauren Liner/Dark Green		
10124	Nonvented, Standard Liner	100 liners
10126	Nonvented, Reinforced Liner	100 liners

Premium Milk Hose

Designed for superior durability, flexibility and cleanability, our premium milk hose is constructed from our DairyGrade® silicone compound, a food-grade silicone blend that meets 3-A testing standards. Available in two shapes: round and Tri-Circle. The Tri-Circle shape has kink-resistant ribs, which make it ideal for tight-radius applications.

Part #	Description	Qty/Box
10202	Milk Hose, 5/8" ID, Round	100'
10302	Milk Hose, 5/8" ID, Tri-Circle	100'
10201	Milk Hose, 3/4" ID, Round	100'
10301	Milk Hose, 3/4" ID, Tri-Circle	100'
10200	Milk Hose, 7/8" ID, Round	50'

Clear Milk Hose

Made with our DairyGrade® silicone compound, our clear milk hose delivers both visibility and high performance.

Part #	Description	Qty/Box
10212	Clear Milk Hose, 5/8" ID, Round	100'
10211	Clear Milk Hose, 3/4" ID, Round	100'
10210	Clear Milk Hose, 7/8" ID, Round	50'

Lauren Milking Shells

Specifically designed to integrate with Lauren Liners, our shells incorporate an antitwist feature to ensure proper alignment. Available in a weighted and nonweighted version.

Part #	Description	Qty/Box
10152	Milking Shells, Weighted	50 pieces
10152N	Milking Shells, Nonweighted	50 pieces

Milking Products (continued)

Pulsation Enhancers

Designed to adjust the C-phase of the pulsator, our enhancers slow down the C-phase, allowing the liner to close slower and softer, eliminating the slapping effect while increasing cow comfort.

Part #	Description	Qty/Box
10507	CR 30, Green	50 pieces
10508	CR 45, Yellow	50 pieces
10509	CR 60, Burgundy	50 pieces

Short Air Tubes

Durable and long-lasting, our short air tubes are made from a high-grade polymer blend to stay flexible and maintain performance during cold or hot temperature extremes.

Part #	Part #	Description	Qty/Box
10501	10501G	SAT 8.5" length, 9/32" ID	100 pieces
10512	—	SAT 9" length, 9/32" ID	100 pieces
10513	—	SAT 7.5" length, 9/32" ID	100 pieces
10514	—	SAT 7" length, 9/32" ID	100 pieces
10515	—	SAT 6.5" length, 9/32" ID	100 pieces

Twin Tube

Durable and long-lasting, our twin tube is made from a high-grade polymer blend to stay flexible and maintain performance during cold or hot temperature extremes.

Part #	Description	Qty/Box
10503	Twin Tube, 9/32" ID	200'

Other Products

Choose the right components to optimize your farm's performance.

Wash Cups

Made using the same DairyGrade® silicone compound as our Lauren Liner, these replace the conventional black rubber cups on today's most commonly used wash trays. Also available with an adapter for bolting onto trays.

Part #	Description	Qty/Box
10161	Wash Cups	100 pieces
10165	Wash Cups with Adapter	75 pieces

CIP Inserts

Convert a 57mm wash tray to a 51mm wash tray to accommodate the Lauren Liners.

Part #	Description	Qty/Box
10160	CIP Inserts	100 pieces

Jetter Cups

Provide optimal fit and seal for enhanced system cleaning. Works with most 51mm liners.

Part #	Description	Qty/Box
10162	Jetter Cups	100 pieces
